INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Hon. Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The present application, U.S. Application No. 10/530,501, is a U.S. national stage of PCT Application No. PCT/IL2003/000219. Applicants hereby submit an Information Disclosure Statement citing art.

The Examiner is respectfully requested to review and consider this art, in accordance with MPEP §2001.06 and to indicate in the first office action that he has considered this art. Additionally, the Examiner is respectfully requested to cite those prior art publications mentioned in this application which the Examiner considers to be material or relevant to the present claims.

Further, in order to comply with discretionary regulations 37 C.F.R. §1.97 and §1.98, attached is an Equivalent to Form PTO-1449 listing the cited art. Also attached are copies¹ of the art. This art contains information which the Examiner may consider to be important in deciding whether to allow the present application to issue as a patent.

Copies of items 1 – 14, 21-33, 40-53, 57-69, 73-82 are not attached, as the USPTO

10/12/2006 WABDELRI 00000073 033419 10530501
01 FC:1806 180.00 DA

¹ To the extent that a document is listed and no copy of same is attached, then such document is not at the present time available to the undersigned or is available in the national stage file. If a listed document is not in the English language and an English translation is readily available, such translation is also attached; if translation is not attached, it is not readily available to the undersigned. If a foreign language patent document is cited, and an English language equivalent is known to the undersigned, then such an equivalent patent is also cited on the attached form along with the corresponding foreign language patent and a connecting arrow indicated therebetween; if no such English language equivalent is cited then none is known to the undersigned.

waived the requirement under 37 CFR 1.98(a)(2)(i) for submitting copies of US patents and US patent application publications in all U.S. applications filed after June 30, 2003. See MPEP 609 III A(2).

Item 15 (BE 748225) which is cited in an Office Action of a related U.S. Patent application No. 10/363,365., is in a foreign language. A copy of the English-language Office Action dated June 6, 2005 is provided.

Since item 16 is in a foreign language, applicants attach an English-language International Search Report dated September 29, 2003 issued for PCT Application PCT/IL03/00221, which cites this publication.

Items 18 and 70 are in foreign languages, applicants provide English-language translations to these references.

Since items 17, 19, 54-55 and 71 are in a foreign language, applicants attach an English-language abstract to each of the references.

Also enclosed are English translations of JP Publication No. 5-228016 (item 72) and JP Publication No. 8-223783 (item 83). The translations were downloaded from the Japanese Patent Office site.

In accordance with MPEP §609 it is requested that each document cited (including any mentioned in Applicants' specification which is not repeated on the attached PTO-1449 form(s) or equivalents thereof) be given thorough consideration and be cited of record in the prosecution history of the present application by initialing on the PTO-1449 form or its equivalent, so that it will appear on the face of the patent issuing on the present application, even if the Examiner does not consider it sufficiently pertinent to use in a rejection, or otherwise does not believe that the guidelines for citation have been fully complied with.

The present Information Disclosure Statement is being submitted in compliance with 37 C.F.R. §1.56 as an Examiner might consider any cited document important in deciding whether to allow the application to issue as a patent, but the citation of each document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 C.F.R. §1.104(a),

127/04241

and in the course of such search will review for relevance every document cited on the attached form.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,
Pinchas SHALEV et al.
